2014-2015 | 90.00%

HOBBIES

BIKE RIDING | SWIMMING | DRIVING | TRAVELLING | READING BOOKS

WORK EXPERIENCE

Cognizant Technology Solution (3.8 years & Working)

➢ ### SUNCORP Bank - Projects

Technology: AEMaaCloud, HTML, CSS, JS, JAVA, BitBucket
Highlights:

- GraphQL & Headless Delivery: Implemented GraphQL endpoints to expose Content Fragment data as structured JSON.
- Worked on full UAT/Prod deployment cycles and pre-release checklists.
- Custom Governance & UI: Developed JavaScript-based AEM workflows for fragment locking and built components that dynamically render Experience Fragments using query parameters and AEM Tags.
- ElasticSearch PoC: Architected a Proof of Concept to integrate ElasticSearch, enabling real-time indexing and searching of AEM content triggered by publish/unpublish events.
- AEM Forms & Servlets: Developed custom Sling Servlets to facilitate API calls for dynamic data rendering within AEM Forms.

➢ ### NOVO NORDISK - Projects

Technology: AEMaaCloud, HTML, CSS, JS, JAVA, REACT, GitHub
Highlights:

- Migrated AEM 6.5 to AEM as a Cloud Service, ensuring smooth transition.
- Developed scalable, reusable AEM components using Sling Models with comprehensive JUnit test coverage.
- Collaborated with front-end teams to integrate AEM components with React and implemented advanced dialog validations using JavaScript & ClientLib.
- Integrated third-party API for chatbot functionality, managed code via Git, and performed rigorous testing across environments to maintain high-quality standards.

➢ ### Abbott - Projects

Technology: HTML, CSS, JS, AEM
Highlights:

- Managed content authoring, multi-site setup (language/live copies), and publishing workflows during AEM Cloud migration, ensuring seamless integration and efficient delivery.
- Developed and configured AEM components while resolving front-end issues and tickets to enhance functionality and user experience.

➢ ### AEM EDS POC/RFP for (Pfizer, Suncorp Bingle, and TheAASC) - Projects

Technology: HTML, CSS, JS, AEM EDS, DA Live
Highlights:

- Developed multiple blocks and styled pages using Edge Delivery Services (EDS) and the new authoring environment da.live, including homepage and few child pages; applied CSS and JavaScript for interactive, responsive design.
- Set up EDS, utilized document authoring(da.live) for structured content blocks, and managed code via GitHub. also did Google Docs integration for pfizer.
- Provided EDS training to associates.
